

“Honeycomb” Boxes

Step 1

Gather an empty tissue box or glove box, a pair of scissors, masking tape, and approx. 13 cardboard toilet paper rolls.

Step 2

Cut and extend the top opening of the box so you can fit the rolls in comfortably.

Step 3

If working with a glove box, you will need to cut the toilet paper rolls down to size. Make sure they are still tall enough to hit the upper lip of the box.

Step 4

Tape each toilet paper roll together to form a “honeycomb” shape. The rolls should fit snugly together inside of the box.

Your enrichment is complete! Thank you for loving lemurs!
