

Turn these lemur hands into turkeys!

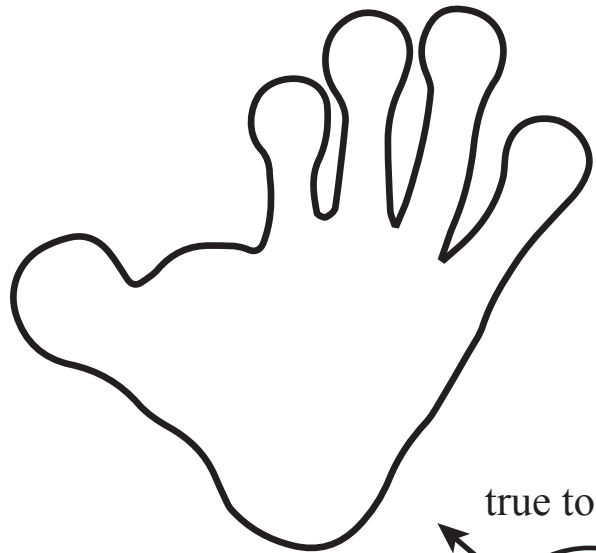

Coquerel's sifaka (hand)
(*Propithecus coquereli*)

Fun fact: Lemurs have opposable thumbs and big toes. Grasping hands and feet help lemurs navigate their way through the forest.

collared lemur (foot)
(*Eulemur collaris*)

Fun fact: Lemurs have five fingers and toes on each hand and foot. This is called “pentadactyly” and is common in many different animals.

grey mouse lemur (foot)
(*Microcebus murinus*)

Fun fact: Mouse lemurs are the smallest lemurs, but they are very strong and can pull over 10 times their body weight. Tiny but mighty!

true to life size!
