Create a legacy for lemurs *and* the Duke Lemur Center

Whether you are considering a future gift of \$5,000 or \$5 million, you have an opportunity now to plan ahead for a truly personal, meaningful gift to benefit the DLC.

Plan a legacy gift

Consider naming the DLC as a beneficiary of your retirement plan, including the DLC in your will, or establishing a life income gift that supports the DLC *and* pays you back. We can share a variety of options for your legacy gift to make a real difference for lemurs and the DLC.

Create an endowment

An endowment is a gift that keeps giving! We'll help you create an endowment that supports a specific need of the Duke Lemur Center *in perpetuity*.

- ❖ **A gift at any level** can be designated to the DLC's general operations endowment fund - an excellent choice to support the DLC's work in perpetuity with a gift under \$100,000.
- ❖ **\$100,000** will establish a named endowment for unrestricted support of the Duke Lemur Center.
- ❖ **\$300,000 or more** will establish a named endowment for a restricted area of support, such as colony care, student programs, or Madagascar conservation. It's also possible to endow staff positions such as director, veterinarian, and more.
