

Certificate of Adoption

This is to certify that

will share in the care of a lemur from the
Duke Lemur Center

Greg Dye, Executive Director of the Duke Lemur Center
December 2023

lemur.duke.edu

Welcome to the Duke Lemur Center's Adopt a Lemur Program!

A lemur from the Duke Lemur Center has been adopted symbolically in your name! A packet introducing you to your lemur and giving you more details about the lemur will be mailed to you. Your lemur will stay at the Duke Lemur Center, but you will learn about its personality, activities, and behavior.

Keep your eyes out for email updates!

The introductory packet is only the beginning of getting to know your lemur! You will also be receiving quarterly emails with news on the lemur's activities throughout the year. If you have questions or need to update your email, please contact adoptalemur@duke.edu

This gift matters!

Lemurs are the most endangered mammal group on Earth. The DLC is home to the largest and most diverse population of lemurs outside of Madagascar and is working hard to protect and ensure the continued existence of these extraordinary animals. The DLC's colony is critical for providing a genetic safety net to ensure a future for these rare primates.

Funds raised through our Adopt a Lemur program help the DLC care for our lemurs. This support contributes towards high quality food, enriching activities for the animals, top-notch veterinary care, and other essentials. It also helps fund programs to protect lemurs in their wild habitat, Madagascar.
